WORK EXPERIENCE

Software Consultant

Actionstep

06/2017 – 07/2018

Auckland

Start-up software company that developed a Law management system

Achievements/Tasks

- ▣ Actionstep was a product that was designed for law firms to assist with day to day activities. My day consisted of finding bugs within the software to send to our team to fix, training customers and clients on how to use the software and any technical help along with it. Along with this, I had to complete software/add-on sales to certain clients.

Technical Ninja

Vodafone

07/2015 – 06/2017

Auckland

Achievements/Tasks

- ▣ Part time technical support. With any hardware/software issue or with an issue with the service in general. I was first point of call for our customers and often had to deal with escalations.

Customer Services

ASB Bank

03/2014 – 07/2015

Auckland

Achievements/Tasks

- ▣ Essentially, I was the teller on the phone. Resolution of banking queries, help with the applications to provide support and resolve errors and bugs. Also, reaching constant sales targets.

EDUCATION

Bachelor Of Computer Sciences

Auckland University of Technology

03/2013 – 12/2016

Yoobee

07/2018 – 07/2019

Auckland

Courses

- ▣ User experience
- ▣ User Interface
- ▣ Web Development

ACHIEVEMENTS

Waitemata DHB (07/2015 – 06/2016)

I worked as an intern for the organisations listed above, I was expected to design an interactive web application. The key skills and programming systems and software that I used were : JAVA , HTML5 Canvas, Sql , Php , Adobe. This consisted of a project for 11 months which I could apply my knowledge to and benefit the organisations listed above at the same time enhancing my current software development skills.

Intern at AVIS (01/2014 – 03/2014)

Handling I.T errors, and troubleshooting for staff at the head office. Installing and getting hardware running as well as some software issues and also managed some of the cabling. Along with providing internal staff with excellent customer service.
